

ACG 2009 Annual Scientific Meeting and Postgraduate Course October 23-28, 2009 San Diego Convention Center San Diego, California

Helpful hints when searching on the ACG Connect website

To Search All Abstracts:

Searching papers – go to Session Type and select Plenary Sessions and hit search.

Your search should show each Plenary Session. To view the actual abstracts within each session, click on the session. You will see a hyperlink that will bring you to the actual abstract.

Search posters – Go to Session Type and select Poster Sessions and hit search.

You will see a separate listing for each day of the poster sessions. Open each listing and you will see the numerical listing along with a link to view the actual abstract.

Search Abstracts for a Specific Topic or Keyword:

To search abstracts by topic or keyword, type in the keyword in the search field and click on search. Now go to the Session Type field, select Abstracts and hit Search. All items listed will include the keyword within the title or body of the abstract.

When you click on individual abstracts in this search, you will see a “download session document” image just below the title of the abstract. To view the abstract, click on the “download session document” image. A separate window will open so you can view the abstract.

Note: this type of search can be a bit tricky and it's best to do it in this two step process to get the best search. I found if I didn't do this in two steps, I didn't get the information I needed.

For all abstracts and sessions, you will see the words Add to My Event Plan either listed within the listing or when you open the session, above the title of the session or presentation. Once items are added to your Event Plan, you will also be able to view abstracts added to your Event Plan. The last column of your Event Plan includes a column called Actions and you will see the download session document image that allows you to view the abstracts again.

To view a complete listing of each course:

Go to Conference Type and choose the course you want to display.

Attendees can add individual sessions and even presentations to their Event Plan.

To search Industry-sponsored Symposia and the Exhibitor Theater, go to:
