The Centers for Medicare and Medicaid Services (CMS) on July 8, 2015 announced devastating cuts to reimbursement for lifesaving colonoscopy exams under Medicare's Physician Fee Schedule.

The **American College of Gastroenterology** is fighting on behalf of Medicare beneficiaries and the physicians on the front lines of screening and prevention of colorectal cancer. The College opposes cuts to colonoscopy in Medicare which will cause a significant negative impact on medical practices and threaten the progress the United States has made in the fight against colorectal cancer.

Sign this petition to add your voice to demand that Congress not allow cuts to colonoscopy and help stop Medicare bureaucrats in their tracks.

PETITION: I support colorectal cancer prevention for Medicare beneficiaries. CMS must not finalize proposed cuts of 10 to 20% to colonoscopy in 2016. Sign Now.
