Program Description and Accreditation/CME: Hepatitis School is a day-long interactive educational program providing an immersion in hepatitis B and hepatitis C management, and a clinical update on new therapeutic modalities and approaches. The program will focus on the epidemiology and treatment of hepatitis B, the epidemiology of hepatitis C, assessing candidates for therapy, the currently approved therapies for hepatitis C and the pipeline of new drug development for the treatment of hepatitis C, approaches to patients with HCV-HIV co-infection and how to navigate the complex insurance processes related to HCV treatment. After completion of Hepatitis School, attendees will be able to identify appropriate candidates for therapy, describe the pre-treatment evaluation, recommend appropriate therapies for naïve and previously treated hepatitis C patients based on genotype and be able to address the side effects of these therapies, and understand the timeline of new drug development for the treatment of hepatitis C infection. Participating in this education activity will enable learners to analyze the challenges in treating patients with HIV/HCV co-infection, describe the drug-interactions specific to patients with co-infections, and explain (a) current approved therapies for HCV/HIV co-infection, (b) the use of HCV protease inhibitors in the treatment of patients with co-infection and (c) the current anti-viral treatment of the cirrhotic patient.

The program is designed primarily for clinicians in GI/hepatology as well as physician assistants, nurse practitioners and other advanced practice healthcare professionals interested in an aggressive but scientifically sound approach to the management of GI and liver illnesses.

The American College of Gastroenterology is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

CME: The American College of Gastroenterology designates this live activity for a maximum of 8 AMA PRA Category 1 Credits™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

MOC Points: Attend ACG’s Hepatitis School on Friday, June 24, and earn 10 MOC points when you successfully complete the 30-question online module, which is free to all Hepatitis School attendees. Instructions on how to access the online MOC module will be provided at the conclusion of the program.

Accommodations: To make your reservation, please contact The Mayflower Hotel at 888-236-2427 or 202-347-3000 to reserve your room by phone. Special meeting room rates per night are $189 single/double plus tax. Reservations must be made by June 2, 2016. VISA, MasterCard, American Express and Diners Club are accepted. There are a limited number of rooms available at the meeting rate. Rooms will fill up ast, so make your reservation as early as possible. There is no guarantee that rooms will be available up to the deadline date, and there is no guarantee that the rooms will be available at the ACG meeting rate. Rates quoted are on a space-available basis only. Once ACG’s room block is sold out, the hotel may charge a higher rate for any additional rooms made available. Requests for reservations received after this date will be on a space-available basis only. All reservations require a deposit of one night’s room and tax by guest check or credit card to be charged upon reservation. Cancellations made within 24 hours of check-in will be charged one night’s room and tax. Check in is 3:00 pm. Check out is 12:00 noon.

Registration: The registration fee includes admission to all Hepatitis School sessions; continental breakfasts, a midmorning coffee break, and lunch on Friday. NEW: Includes your registration is complimentary access to the course presentations via the ACG Mobile app. The app can be used to download faculty presentations onto tablets, mobile devices, and laptops with note-taking and highlighting capabilities. Take notes at the event and continue reviewing them when you get home. Presentations will also be available online in PDF format. You will have access prior to the course to download or print the slides. (Note: A printed syllabus will not be available.) All registrants must pay the full registration fee; partial registration is not available. Full refund of registration fees will be given, less a $25 administrative fee, if written notice of cancellation is received by ACG by June 2, 2016. No refunds will be given after this date. Attendees may register by submitting the enclosed registration form with payment in U.S. funds to the College headquarters by fax to 301-263-8025, by mail to ACG, 6400 Goldsboro Road, Suite 200, Bethesda, MD 20817, or online at gi.org/regional-meetings.

More Information: For more information about this course, call ACG at 301-263-9000. Americans with Disabilities Act: Attendees of this ACG course who need additional reasonable accommodations or who have special needs (including dietary needs) should contact the ACG office at 301-263-9000 no later than June 2, 2016.

EDUCATIONAL AGENDA

6:45 am Registration and Continental Breakfast with the Exhibitors

8:00 am Welcome and Introduction
David E. Bernstein, MD, FACC

8:10 am HBV—Natural History and Management
Mitchell L. Shiffman, MD, FACC
Discuss the natural history of hepatitis B. HBV serologies, the different immune stages of the disease, and screening recommendations for HCC in patients with HBV.

8:40 am HBV—Treatment
Paul Y. Kwo, MD, FACC
Explain current recommendations for the treatment of HBV and summarize the use of anti-HBV drugs to minimize transmission risk during pregnancy and to prevent reactivation of occult HBV during immunosuppression.

9:10 am HCV—Epidemiology, Screening, Natural History and Extra-hepatic Manifestations
Bruce A. Luxon, MD, PhD, FACC
Describe the epidemiology of HCV, screening recommendations, and the natural history of HCV.

9:35 am HCV—Assessing the Patient Prior to Treatment: Diagnostic Testing and Staging
Jorge L. Herrera, MD, MACG
Assess currently available assays used in the diagnosis of hepatitis C and discuss current modalities available for staging fibrosis in patients with HCV.

9:50 am Q & A

10:20 am Refreshment Break in the Exhibit Hall

10:40 am HCV—Treatment of Genotype 1: Now and in the Future
Paul Y. Kwo, MD, FACC
Summarize the current and future management options for patients with HCV genotype 1, including patients with cirrhosis.

11:05 am HCV—Treatment of Genotypes 2, 3 and 4: Now and in the Future
David E. Bernstein, MD, FACC
Analyze the current and future management options for patients with HCV genotypes 2, 3, and 4, including cirrhosis.

11:30 am HCV—Retreatment of DAA Failures
Jorge L. Herrera, MD, MACG
Identify how to approach patients who have failed HCV treatment with the current DAA therapies and the role viral mutations/resistance may play in this process.

1:30 pm Lunch with Faculty and Case Presentations/Q & A

1:55 pm Treatment of Patients With Decompensated Cirrhosis and Liver Transplant Recipients
Paul Y. Kwo, MD, FACC
Differentiate HCV treatment in HCV patients with decompensated cirrhosis, which patients should not be treated and how to manage HCV after liver transplantation.

2:20 pm Approach to HCV Treatment in Patients With HCC
Jorge L. Herrera, MD, MACG
Explain the epidemiology and natural history of HCV in patients with end-stage renal disease and the treatment options available for these patients.

4:15 pm Q & A / Wrap-up

4:30 pm Course Adjourn

11:55 am Lunch with Faculty and Case Presentations/Q & A
April G. Morris, FNP
Outline how to prepare patients for HCV treatment, obtain medication approval from the insurance carriers, and monitor patients during treatment.
1:00 pm Treatment of Patients With Decompensated Cirrhosis and Liver Transplant Recipients
Paul Y. Kwo, MD, FACG
Differentiate HCV treatment in patients with decompensated cirrhosis, which patients should not be treated and how to manage HCV after liver transplantation.
2:00 pm Approach to HCV Treatment in Patients With HCC
Jorge L. Herrera, MD, MACG
Evaluate the relationship between HCV and HCC, discuss screening strategies for evaluation of HCC, and when to consider treatment of HCV in patients with HCC.
2:20 pm Break
2:45 pm HCV in Patients With Chronic Renal Failure
David E. Bernstein, MD, FACC
Explain the epidemiology and natural history of HCV in patients with end-stage renal disease and the treatment options available for these patients.
3:00 pm Treatment of Patients With HCV and HIV
Bruce A. Luxon, MD, PhD, FACC
Review the epidemiology and natural history of HCV in patients with HIV and the treatment options available for these patients.
3:25 pm The Impact of Curing HCV on the Liver and the Extra-hepatic Manifestations of Chronic HCV
Mitchell L. Shiffman, MD, FACG
List how HCV impacts other organs outside the liver and the impact of curing HCV on these extra-hepatic manifestations.
3:50 pm Q & A / Wrap-up
4:15 pm Course Adjourn
