80% by 2018 Colorectal Cancer Initiative: DID WE MAKE IT?

In 2014, the National Colorectal Cancer Roundtable, together with leadership from the ACG, proposed an ambitious national goal: to screen 80% of all eligible U.S. adults for colorectal cancer (CRC) by 2018.

Well, 2018 is just about here. Did we make it? Where did we succeed and what can we still improve?

The American Journal of Gastroenterology requests your **original research** and **insightful reviews** about the current state of colorectal cancer screening and prevention.

Eligible topics include:

- ✓ **Facilitators and barriers** to CRC screening
- ✓ **Racial and ethnic disparities** in CRC screening
- ✓ **Health economic consequences** of CRC screening
- ✓ **Best practices** to increase CRC screening rates
- ✓ **Or your creative interpretation** of this topic

**SUBMIT YOUR RESEARCH AND BE PART OF
AJG'S SPECIAL ISSUE CELEBRATING THIS
IMPORTANT MILESTONE!**

Please clearly state in your cover letter that your manuscript is intended for the special 80% by 2018 issue of AJG. Depending upon the response to this request, some accepted manuscripts may be published in other upcoming issues of AJG.

*Submit Your
Manuscript!*

Submit manuscripts here:
